

# CRIMINAL JUSTICE

---

The Criminal Justice department offers a Bachelor of Science and Associate of Science degree program of study. The program provides a broad curriculum for students who wish to pursue entry and intermediate level careers in Criminal Justice. Since 2001, the Criminal Justice field has experienced significant expansion and several new careers fields have developed, many requiring Bachelor and Associate degrees.

Upon completion, our graduates will be prepared for employment as Federal, State or Tribal Law Enforcement Officers, Corrections Officers, Parole and Probation Officers, Transportation Safety Officers, Victim Advocates, United States Customs, Homeland Security, Military Investigative Services and private security agencies. All employment opportunities have pre-employment requirements and many agencies require college degrees, background checks, physical and psychological examinations, and licensing examinations. The student must be motivated to demonstrate the attitude and behavior connected with the professional career being pursued.

## Degrees
