

INDIGENOUS FINE ARTS

The Indigenous Fine Arts Associate of Science (AS) degree program provides a wide variety of traditional and nontraditional art forms for students to explore their artistic interests as they pursue a future as an Indigenous artist or a path into other programs of study. The Indigenous Fine Arts program provides students with the iconography and know-how to teach and create various traditional and contemporary art forms through different mediums. Students considering selling their artwork can utilize the business electives within the program for marketing and selling.
