

PRE-ENGINEERING

UTTC's Pre-Engineering Associate of Science (AS) degree program provides a rigorous and highly rewarding employment option for students interested in pursuing a career in Engineering. Small classes ensure personalized attention and extra tutoring when needed. Interactive modules are a focus of the program and include topics such as computer-aided design and drafting and 3D-printing. Students entering the program should be comfortable with mathematics or have a strong desire to learn math concepts in a challenging but supportive atmosphere. Engineering is a problem-solving degree with the potential to create better lives for all Oyate.

When you graduate from a Pre-Engineering associate degree program, you have the potential to begin a career as an engineering technician. However, the degree is designed for transfer into an ABET-accredited bachelor's program at such institutions like University of North Dakota, North Dakota State University, South Dakota School of Mines, and Navajo Technical University, to list a few.
